

CIP Cart

Custom Built to Meet Your Needs

Save time and money with a Portable Clean in Place Cart. The dual tank design recovers chemicals and holds them at your precise temperature, ensuring proper sanitation. The CIP Cart is ideal for facilities with several tanks as a labor reducer.

Features

- Dual 40-gallon reservoirs with individual heating elements
- Independent reservoir temperature controls
- Sight tubes on each reservoir for easy water/chemical measurements
- A complete CIP system on a mobile cart
