

Brewhouses

Custom Built to Meet Your Needs

ABE Beverage Equipment brewhouses are custom-built to fit each brewer's individual needs. Our staff works with you on everything from defining your optimal layout to designing the setup and size of your brewhouse and tanks. Most importantly, every brewhouse is built with 304 stainless steel and uses SEW motors, so they are as durable and hard-working as you are. Each brewhouse goes through a comprehensive quality control inspection before it leaves our Lincoln, Nebraska facility, where everything, including the inside of the piping, is inspected. Automated and semi-automated brewhouses, coffeehouses, teahouses, and mash houses are available with steam or direct fire heat, and with a variety of vessel configurations for 3–60bbl systems.

Your Complete Package

Each brewhouse that leaves our facility carries UL certification and an industry-leading five year limited warranty on the metal and welds. In addition to a comprehensive spare parts inventory, you'll receive superior customer support from our team right here in Lincoln, Nebraska with any ABE purchase.
