

GlassPak Series

Custom Built to Meet Your Needs

The GlassPak Glass Bottling Systems by ABE Beverage Equipment are fast, reliable, and consistent. These high-speed rotary bottling lines rinse, fill, and cap up to 33 or 66 bottles per minute. Built with heavy-duty 304 stainless steel, the GlassPak can also be outfitted with a capper for 28mm, 38mm plastic, or ROPP caps.

The counter-pressure filling process uses a double pre-evacuation purging method to reduce D.O. levels. By bottling under pressure, the GlassPak maintains carbonation levels and controls foam expansion. Excess pressure is vented before the cap is applied to give your craft beer maximum shelf life.

Your Complete Package

Each GlassPak that leaves our facility carries UL certification and an industry-leading five year limited warranty on the metal and welds. In addition to a comprehensive spare parts inventory, you'll receive superior customer support from our team right here in Lincoln, Nebraska with any ABE purchase.
