

Patriot Micro Distillery

Custom Built to Meet Your Needs

ABE Beverage Equipment has developed a unique approach to the production of small-batch craft spirits and is proud to support the growth of the small crafts spirits producer with the development of the Patriot Micro Distillery. Depending on a few variations of how you would like to approach your distillery, the Patriot Micro Distillery can be delivered in one of three configurations. This includes a Still Skid with rectifying column or optional whiskey helmet, a Mash Skid for on-site wash production, or ABE's Pilot Still with rectifying column and optional spirits safe.

Requiring less than 500 square feet of production space, the Patriot Micro Distillery is a compact solution that can produce up to 6,000 gallons of top-quality spirits per year!

Your Complete Package

Each Patriot Micro Distillery that leaves our facility carries UL certification and an industry-leading five year limited warranty on the metal and welds. In addition to a comprehensive spare parts inventory, you'll receive superior customer support from our team right here in Lincoln, Nebraska, with any ABE purchase. Call ABE Sales at 402-475-2337 for your custom configuration today!
