

TailGator

Custom Built to Meet Your Needs

This semi-automated can feed system works at conveyor heights, or can be elevated to incorporate a twist rinse option, to allow a full slip of cans to be fed onto an ABE canning line up to 65 CPM. Its collapsible design makes this ideal for small spaces or a mobile canning unit.

Your Complete Package

The TailGator simplifies your packaging day as a highly demanded addition to ABE's complete packaging portfolio. Ask your representative for solutions for can filling, date coding, labeling, and more.
