

Pilot Skid

Custom Built to Meet Your Needs

ABE has developed a simple way for start-up craft distiller pioneers to establish a small-scale distillery without spending a vast amount of money. Whiskey, vodka, gin, and other clear spirits can be produced utilizing this still. Depending on your production needs, additional options include a rectifying column, whiskey helmet or spirits safe.

ABE's Pilot Stills are safe too. These stills are equipped with explosion proof heating elements and CSA Certified heating elements. Our 304 stainless steel comes with an industry-leading guarantee and is a low-maintenance alternative to all-copper systems.

Your Complete Package

Each Pilot Still Skid that leaves our facility carries UL certification and an industry-leading five year limited warranty on the metal and welds. In addition to a comprehensive spare parts inventory, you'll receive superior customer support from our team right here in Lincoln, Nebraska with any ABE purchase. Call ABE Sales at 402-475-2337 for your custom configuration today!
